THE TOOLS THEY USED.

THINGS HAVE BEEN DONE. Dr. Wm. H. Wollaston rendered many services to science. He was the first to

detect the Fraunhofer lines in the solar spectrum, and to demonstrate the idenfity of galvinism and frictional electricity, One day a visitor from a foreign coun ty called upon the doctor and asked to

be shown the labratory where so many valuable discoveries had been made.

The dector conducted his visitor to a

small room in which there was no furniure except a table; on the table was an

old tea-tray containing a small balance.

blow-pips, some test papers and a few
